MANAGING & UNDERSTANDING YOUR PET'S WEIGHT

Transforming Lives

**feeding the love
losing the weight**

**Over 50% of pets
are overweight.¹
Is yours?**

pet obesity is a big problem

1 in 3 pet parents do not recognise their pet's weight issue¹

Spot the signs of weight issues

Ribs cannot easily be felt
Loss of an obvious waist
Collar needs loosening
Difficulty walking

Slow movement
Shortness of breath*
Sleeping more than usual

What might be affecting my pet's weight?

Excess calories
Breed
Age

Lack of exercise
Neutering
Over-treating

Managing your pet's weight issues

Overweight and obese pets can be at an increased risk for developing health conditions due to excess weight. Feeding the right food is one simple step you can take to help your pet slim down. Hill's weight management foods support weight loss with nutritional science and help pets maintain a healthy lifestyle.

*This may be a sign of a more serious problem. If you are concerned, please contact your veterinarian.
